DeKalb County Animal Control

Dear New Home Owner:

Moving into a new home is a busy time and the last thing we think of is to update our pet's records. However, if your pet was to get lost in it's new neighborhood, getting them home again could be very difficult. Whether you are new to DeKalb County or moving with in the county, it is important that Animal Control has correct information for your dog(s).

Simply call (815)748-2427 to change your address or to request a DeKalb County rabies tag. Our offices are open from 8:00-4:30 Monday-Friday. Illinois State law requires that every dog be vaccinated for rabies and registered in the county where it lives.

In addition to vaccinating and registering all dogs over 4 months old, owners must:

- Place the Rabies Vaccination Tag on the dog's collar
- Maintain control of any dog while not on it's owner's property
- Treat their pets in a humane manner
- Provide wholesome food, water, and shelter from the elements
- Report all bites by their dog immediately to Animal Control

Enjoy your new home!!!
